SANDWICHED IN: Walking the High Line. Friends of the High Line believes the historic High Line rail structure offers New Yorkers the opportunity to create a one-of-a-kind recreational amenity: a grand, public promenade that can be enjoyed by all residents and visitors in New York City. Constructed in the 1930s, it spans 22 blocks between 34th Street and Gansevoort Street, and was built to support 2 fully loaded freight trains. The High Line runs through three of Manhattan's most dynamic neighborhoods: Hell's Kitchen/Hudson Yards, West Chelsea and the Gansevoort Market Historic District. When the High Line is converted to public open space, you will be able to rise up from the streets and step into a place apart, tranquil and green. You will see the Hudson River, the Manhattan skyline and secret gardens inside city blocks as you've never seen them before. You will move between Penn Station and the Hudson River Park, from the convention center to the Gansevoort Market Historic District, without meeting a car or truck. The High Line will be a promenade, a linear public place. You will sense New York's industrial past in the rivets and girders. You will perceive the future unrolling before you in an artfully designed environment of unprecedented innovation. It will be yours — public in the truest sense of the word . . . but not just yet since it is still owned by the City of New York. Join Meredith Taylor, a volunteer with Friends of the High Line, for an audio-visual lecture of this proposed addition to the long list of fascinating places to visit in New York City. 12:10 p.m.

WAY OFF BROADWAY: All in the Timing. The world according to playwright David Ives is a very odd place, at once enchanting and perplexing, as well as funny. The collection of short, comedic plays that make up tonight's performance are about the mistakes and misinterpretation of language. Ives shows that absurdity and lunacy are a part of life but, in the end, it is hope that shines through. Join the Township Theatre Group for their presentation of selections from *All in the Timing*. 8 p.m.

18 MONDAY

AFTERNOON AT THE OPERA: Lohengrin. Richard Wagner's breakthrough opera so attracted King Ludwig of Bavaria that he became a financial patron for the composer for the rest of his career. *Lohengrin* epitomizes the mixture of human relationships, magic and mysticism that would be characteristic of most of Wagner's subsequent operas. First performed at Weimar in 1850, *Lohengrin* dramatizes the adventures of a grail knight, who literally appears as a knight in shining armor to rescue Elsa, a damsel in distress. In an opera that dramatizes the battle between paganism and early Christianity, Lohengrin and Elsa are pitted against the forces of evil represented by Ortrud and Telramund. Though their marriage is doomed even before it occurs, Lohengrin and Elsa are able to prevail as good defeats evil, while Elsa dies and the knight departs on a brightened swan. Video excerpts will accompany this presentation by professor James Kolb. Sponsored by Friends of the Library and Music Advisory Council. 4 p.m.
