#### Alan Richards: Let Me Show You Something

On View January 4 - February 27, 2025

Artist Presentation: Saturday, February 1 at 3:00 p.m.

Richards' artwork is a dynamic fusion of photographs, drawings, and digital elements, creating striking photomontages that tell unique stories. His pieces explore the human condition, reflecting both personal experiences and the complex interactions between people and the world around them.

Richards combines his photographs with archival, found, or vintage images, which he then enhances through digital painting and drawing. This process brings together diverse elements into a cohesive, thought-provoking final image.

His work invites viewers to engage deeply with each piece, offering layers of meaning and opportunities for personal interpretation. Through ambiguous elements and unexpected details, Richards' art challenges perceptions and encourages discovery with every viewing.

## History Center Spotlight

In the early 1900s, a frozen Manhasset Bay enticed adventurous Port Washington residents to go ice boating. The crafts were outfitted with metal runners which would allow the boats to skim along the ice when winter winds filled the sails. During an extremely cold winter in 1934, the bay ice was two feet thick — more than good enough for ice boating, but also solid enough to drive automobiles across the water!
