VII	Assistant Director a) HKNC Partnership b) Homework Help
VIII	Councils a) Art Advisory Minutes – September 13, 2023
IX	Foundation a) Foundation Minutes – July 10, 2023 b) Financial Report – July 31, 2023

Friends of the Library
a) Minutes of Meeting – October 18, 2023

Χ

- XI Staff Reports
  - a) Year End Statistics 2023
  - b) Association of Bookmobile & Outreach Services Conference Report
  - c) NYLA Reports
- XII Correspondence
  - a) Senator Martins at Covid Home Tests
  - b) Patron Comments
- XIII Staff Association
- XIV Public Comments
- XV Adjournment

#### PORT WASHINGTON PUBLIC LIBRARY UNAPPROVED MINUTES OF THE BOARD OF TRUSTEES MEETING OCTOBER 18, 2023

Participants: William Keller, Presiding

Nancy Comer Adrienne Saur Keith Klang Patricia Bridges Michael Krevor Matthew Straus

Mr. Keller opened the public meeting at 7:45 pm stating the Board met at 7:00 pm and elected to go into Executive Session to discuss contracts.

**OPENING** 

Mr. Keller requested a motion to approve the September 20, 2023 Board of Trustees meeting minutes. Ms. Bridges moved to approve. All agreed.

APPROVAL OF MINUTES

Mr. Keller requested a motion to approve the September 2023 warrants 23-09-03A and 23-09-03B. Ms. Bridges moved to approve warrants and Mr. Straus moved to approve two payrolls on 9/14 and 9/28. All agreed.

APPROVAL OF SEPTEMBER WARRANTS

Mr. Keller read the Staff Changes for September 2023 stating there were two appointments and one departure. Mr. Straus moved to accept. All agreed.

STAFF CHANGES SEPTEMBER

Mr. Keller noted the September financial reports showing revenue at 25% and expenditures at 20%.

FINANCIAL REPORT

Mr. Keller requested a motion to approve recommendations as outlined in the Year End Memo dated October 9, 2023 by the Library's accountants Cullen & Danowski LLP to assign \$271,074 to fund future capital projects. Mr. Straus moved to approve. All agreed.

YEAR-END MEMO

Mr. Keller requested a motion to approve the General Fund budget transfers for the year ending June 30, 2023 in the amount of \$377,050.64. Ms. Comer moved to approve. All agreed.

BUDGET TRANSFERS

Mr. Klang provided the Board with an update of payments to Preferred Construction approved by H2M including #10. A punch list was created last week at a walkthrough with the Architect, Library Representative, and General Contractor. The contractor is working to finish the punch list. Most work and workers will be off the premises at the end of the week.

ALC & FAÇADE RESTORATION

The Library is partnering with the Port Washington School District (PWSD) to provide space for a district-wide initiative for school personnel. Participants meet in the Mezzanine area on Wednesday mornings prior to the PWPL's opening. There were 35 participants last Wednesday. The PWSD is very appreciative and there will be a few more sessions.

PARTNERSHIP WITH SCHOOLS

Mr. Klang stated that the Adult Learning Center rooms are now available for the public to reserve on-line. This will add additional spaces for the public to use. ALC MEETING ROOM ACCESS

Mr. Keller requested a motion to approve the resolution to vote "in favor" of the ILS & Participating Associated Services Libraries Schedules of fees and to state that he is appointed to submit the authorization. Ms. Bridges moved to approve. All agreed. ILS SERVICES BUDGET APPROVAL

Mr. Keller reminded the Board to complete the mandatory two hours of Trustee Training by December 31, 2023. NLS has many interesting, accredited programs and webinars scheduled between now and the end of the year.

TRUSTEE TRAINING

Mr. Keller stated that the Nassau Library System's Annual Meeting will be on December 6, 2023. People can attend virtually.

NLS ANNUAL MEETING

Mr. Hutter reported on in-person services for this month. The Fiesta in the Park celebrating Spanish Heritage with live music, dance lessons, delicious food, and crafts was attended by hundreds. The program was sponsored by Friends of the Library, The Parent Resource Center, Landmark on Main Street, and the Town of North Hempstead.

IN-PERSON SERVICES

The Moon Festival sponsored by the Children's Advisory Council included a fashion show and Chinese yo-yo performance and a craft to create a beautiful lantern.

Ms. Davidoff and Mr. Hutter recently presented to Mill Pond Estates residents a demonstration of the digital services offered by the Library.

The St. Francis Health Van will be at the providing screenings, including a brief cardiac history, flu shots, blood pressure, and simple blood tests. Gold Coast Film Festival presenting Great Shorts in a two-part series. Music Advisory Council will present Joseph Parrish, a bass-baritone. Sandwiched In will have a WWI program for Veterans Day on November 10<sup>th</sup> with a special flag ceremony from the local VFW.

In November, The Friends of the Library will sponsor a hybrid program, An Insider's View of the Legal Battle Against Book Banning, and an FOL University program.

**FOL MINUTES** 

Mr. Keller requested approval for leave requests provided by staff for attendance at upcoming conferences. Ms. Bridges motioned to approve leave requests for Ms. Monsour, Ms. Gerbasi, Ms. Munoz, and Mr. Hutter.

CONFERENCE LEAVE REQUESTS

Mr. Keller noted the Art Advisory Council minutes of June 14, 2023 and September 2023.

**AAC MINUTES** 

Mr. Keller requested a motion to approve Craig Werle as a new member to the Art Advisory Council. Ms. Saur moved to approve. All agreed.

AAC NEW MEMBER

Mr. Keller noted the very detailed October 2023 Health Advisory Council's recent and upcoming programming report from Ms. West.

**HAC PROGRAMS** 

Mr. Keller requested a motion to approve Corey Peterson as a new member for the Nautical Advisory Council. Mr. Straus move to approve. All agreed.

NAC NEW MEMBER

Mr. Keller noted the Friends of the Library minutes of September 6, 2023 which described interesting programs coming soon.

**FOL MINUTES** 

Mr. Keller noted the Staff report from ESOL recapping summer initiatives and the upcoming year.

STAFF REPORTS

Mr. Klang stated that the Library put together a Referral Guide. A Spanish language version will also be prepared. It has been distributed to our partners and will be posted on the PWPL website.

Mr. Keller noted the History Center – Summer/Fall report prepared by Ms. Nastro. One highlight is that the FOL funded digitization of the Port Washington News is continuing and will cover from 1965-1985.

Mr. Keller noted the Patron Comments for July/August/September 2023.

PATRON COMMENTS

Mr. Guildroy was the Staff Association representative and had no comment.

STAFF ASSOC.

Mr. Straus motioned adjourn. All agreed.

**ADJOURNMENT**

## APPROVAL TO EXCESS EQUIPMENT

**DEPARTMENT: Maintenance** 

TYPE OF EQUIPMENT	MANUFACTURER	MODEL NUMBER	SERIAL NUMBER	QTY.	REASON FOR DISPOSAL	DATE OF BOARD APPROVAL
Metal Shelving				Approxi mately 225 pieces	These were shelving pieces from the Children's Library that have proven to be inadequate. The shelving does not hold books firmly in place and they often fall off the shelves, sometimes from a height taller than small children.	
Metal Shelving				Approxi mately 100 pieces	These were shelving pieces from the old ESOL shelving units that are no longer utilized since the renovation of that area. They do not fit any of our existing shelving.	
Wooden Folding Tables				2	Wooden folding tables that no longer fold properly. In addition, they are extremely heavy and difficult to deploy.	
Date Submitted: 11/15/23	3					

### Take advantage of all we have to offer to our member libraries:

## **Professional Consulting:**

- NYS regulations and legal issues
- Policies and best practices
- Long range and operational planning
- Expertise in cataloging, youth services, outreach, IT, customer service, marketing, reference, facilities, finance

## **Digital Resources:**

- OverDrive consortium administration, including coordination of purchasing
- Discounted rates for databases and digital services
- Vendor relations and account maintenance

## **Continuing Education:**

- Trustee training
- Custom on site and virtual training
- Webinars and video tutorials
- Special events and guest speakers
- Facilitation of peer-to-peer learning

## IT and Network Support:

- Website hosting and maintenance
- Broadband internet
- IT helpdesk
- Email hosting
- Website design and development
- Federal E-rate coordination
- Network monitoring

## **Circulation and Delivery:**

- Daily weekday materials delivery and sorting
- Cataloging and records maintenance
- Cooperative circulation system
- Interlibrary loan
- · Automated notices and alerts

## **Promotion, Advocacy and Funding:**

- · Government and media relations
- Coordinated messaging campaigns
- NYS Construction Aid administration
- Marketing asset repository
- Group buys at discounted rates

### **Statistics and Data:**

- Monthly Key Performance Indicator reports
- NYS Annual Report support
- Per-capita and other operational reports
- Digital services performance reports

# **Programming and Outreach:**

- Techmobile to support digital inclusion and outreach activities
- Summer Reading administration
- Long Island Reads coordination
- Book club at Nassau County jail
- Early Literacy, Maker and STEM kits
- Outreach event equipment loans
- Community partnership projects

#### 2024 and 2025 Member Library Support

#### Request for Approval by Member Library Boards by December 5, 2023

NLS is requesting member library board approval of member library support for calendar years 2024 and 2025. Since 2014, NLS has used a four-factor formula to calculate each library's share that gives equal weight to population, cardholders, materials expenditures, and net circulation. NLS relies on the libraries' Annual Reports to NYS for the data used in the calculations, as well as ILS reports for components of the cardholder and circulation data. NLS has not effected an increase in the total amount of member library support since 2013. With this proposal we seek a modest increase of \$25,000 phased in over two years, which amounts to 1.19% per year. The attached charts fully explicate the following proposal:

- Two-year deal for 2024 + 2025 so libraries have stable and predictable obligations.
- \$25,000 increase phased in over two years, for a total request of \$1,075,000 in 2025.
- Use of a three-year average for each of the factors in the formula. In this proposal we have used an average of 2020, 2021, and 2022 data (the most recent annual reports available) for each of the factors in the formula. (The average is not necessary for the population factor, as the chartered population of each library district is static for 10 years.) This prevents single-year anomalies in libraries' circumstances from causing dramatic shifts in their calculations. We began using three-year averages in the calculation of ILS fees and member library support in 2020, based on the recommendation of participating libraries.
- A two-year implementation of the new amounts for individual libraries. This means that the impact of any increase is spread over the course of two years, with half of the increase implemented in 2024 and the full increase in 2025. Likewise, half of any reduction would be implemented in 2024 and the full reduction would be realized in 2025. This is what has been done in the past without objections by the libraries.

Member library support of NLS supports services to member libraries that are not mandated by the State, including delivery service. In the past two years NLS has launched important new projects, such as the Techmobile and marketing campaigns like the Nassau Library Tour. Other services supported by this funding are: administration of the OverDrive consortium and database coordinated orders; original cataloging; E-rate assistance; NLS staff-mediated out-of-system interlibrary loans; continuing education and training offered by NLS; NLS email accounts for member libraries and/or their staff; hosting libraries' websites; and website design, enhancement and problem-solving assistance. Following the attached charts is a document

# MEMBER LIBRARY BOARD VOTE

#### NLS' Request for Member Library Support of NLS for 2024 and 2025

Please return the completed form to Gina Staffa (gstaffa@nassaulibrary.org) at NLS by December 5, 2023. Original or scanned forms are acceptable.

The Board of Trustees of the	Port Washington Public	Library voted to
approve / disapprov	e NLS' request for Member Library	Support for calendar years 2024
and 2025 at a meeting held on	November 15, 2023.	
The vote was: # For	# Against # Abstained	
Signature of the President of the E	Board:(or the trustee who presided at a	the meeting at which the vote was taken)
President's Name: <u>William</u>		he meeting at which the vote was taken)

If this request is approved by 28 or more member library boards, the decision will be binding on all member libraries. Member libraries will be billed for the 2024 calendar year support based on their fiscal years.

- Libraries that operate on a calendar year basis will be billed in January 2024;
- Libraries with a June May fiscal year will be billed in June 2024;
- Libraries with a July June fiscal year will be billed in July 2024.

#### Two-Year Implementation of 2024 and 2025 Member Library Support Based on 3-Year averages of each factor - 2020, 2021, 2022

Library	Member Library Support Paid in 2023	Proposed for <u>2025</u>	Total Increase or (Decrease)	1st Half of Increase or Decrease to be Paid in 2024	2nd Half of Increase or Decrease to be Paid in 2025

#### **Nassau Library System**

#### SUSPENSION OF NLS SERVICES TO MEMBER LIBRARIES NOT IN GOOD STANDING

Libraries that do not pay their share of member library support of NLS that has been approved by at least a majority of member library boards will be considered to be not in good standing.

- 1. NLS will not host the library's web site.
- 2. NLS will not provide website design and maintenance assistance.
- 3. NLS will not provide **email accounts** for the library and/or its staff.
- 4. NLS will not provide **original cataloging** for any items for which adequate copy cataloging records are unavailable.
- 5. NLS will not provide E-rate reimbursement assistance.
  - [EXCEPTION: NLS will continue to prepare and submit a joint application for all member libraries participating in NLS' ILS and Associated Services.]
- 6. NLS will not provide grant proposal assistance.
  - [EXCEPTION: NLS will provide assistance with library applications for grant programs offered by the State Library / DLD for which all member libraries of public library systems are eligible as well as for State Construction Aid.]
- 7. The staffs, directors and trustees of a library not in good standing will not be allowed to participate in NLS sponsored or arranged continuing education (CE) without charge if NLS paid fees for outside presenter. The fee for participation in this will vary based of the cost of the outside presenter.
  - [EXCEPTION: State grant or aid program funded CE or CE provided as part of a state mandate such as coordinated outreach services or in support of state requirements for libraries (such as annual reports to the state and compliance with minimum standards) will continue to be open to all member libraries. These CE opportunities are provided by NLS without charge.]
- 8. NLS staff will not facilitate a community-based planning process.
- 9. NLS will not provide **staff-mediated interlibrary loan** service.
- **10.** NLS will not provide **delivery service** to a library not in good standing. Such a library must pick up from and return items to the NLS Service Center. This includes items borrowed or loaned via LlLink.
- 11. Libraries not in good standing may not participate in the **Premium Level** group subscription to **Tutor.com's online homework assistance.**
- 12. Libraries not in good standing may not participate in the NLS NDD Consortium for access to downloadable ebooks and audiobooks via OverDrive.
- **13.** Libraries not in good standing may not participate in the **discounted subscriptions to databases and online services that are not in the Core Collection** that are offered by NLS.
- 14. Libraries not in good standing may not participate in NLS' Core Collection of Databases.

A list of services that would be suspended for NLS member libraries not in good standing was originally approved by the NLS Board of Trustees on Dec. 27, 2012 and was most recently revised on Oct. 25, 2021.

#### AAC Meeting Minutes

#### September 13, 2023

In attendance: Linda Sandman, Shellie Schneider, Christie Devereaux De Cesare, Betty Gimbel, Shelley Holtzman, Toby Ozure, Jocelyn Worrall, Patti Paris, Ellen Hallie Schiff and Barbara E. Fishman.

Absent: Pam Record, Jose Seligson, Raisy Derzie, Lynda Schwartz, Vanessa Nastro.

- The meeting started at 5:01, and the June Minutes were approved by Shelley and Jocelyn.
- Demetrius Manouselis's art reception was discussed. Due to a food incident that occurred, in the future, food served should be carefully chosen. Avoid spicey foods.
- The issue of nannies and children eating in the gallery is still and issue and needs to be discussed with Keith. A meeting will be arranged.
- Keith stopped in briefly to congratulate us on the Beth Atkinson exhibit. The exhibit is beautiful. There has been a lot of positive feedback. Thanks to Linda, Toby, Betty, Christie and Jocelyn's husband for installing the exhibit.
- Carole Freysz Gutierrez cannot be switched to January- February. Vanessa reported that
  the Library would like to have an exhibition "pop-up" of photographs by May Pang to
  correspond with the showing of her upcoming film, *The Lost Weekend*. (to be screened at
  the Library The "pop-Up" would run from January 2<sup>nd</sup> to 6<sup>th</sup>. AAC chosen artist can install
  exhibit on January 8<sup>th</sup>.
- For January February, Patti Paris suggested an exhibit of lithographs that were given to her. We need to see the artwork.
- There are no updates for Antonio Masi.
- Jim Graf has been sent his acceptance letter and artist's documents. A studio visit needs to take place for a selection of the works to be show. He should provide a few images to be selected for the postcard.
- More professional artists are needed for 2024. It was suggested that Facebook would be a way to advertise and find more artists for future shows.
- Installations on Fridays are a problem because at noon presentations take place. Vanessa suggested that we schedule another day. The first Wednesday of each month would be ideal. Although the Library opens at 11am, Artist and Council can install exhibits as early as 8am without interference.
- Christie presented the Gallery Schedule for 2024. January/February and November/December are still available.
- Craig Werle's resume will be submitted to the Library Board for AAC membership at their next meeting.

- Linda mentioned that on October 14<sup>th</sup>, Beth Atkinson will have a children's workshop at 10am, presentation at 2pm and the reception will follow. Linda has encouraged all AAC members to attend the 2pm presentation.
- Jocelyn has graciously offered to host an AAC brunch on December 3 at 11am at her home. Each member will bring some food and a list of foods being brought will be generated.

The meeting ended at 5:50pm

Respectfully submitted,

Christie Devereaux De Cesare

The next AAC Meeting is Scheduled for Wednesday October 11th at 5pm

# Association of Bookmobile and Outreach Services (ABOS) Annual Conference Report October 9 – 11, 2023

This month, I had the opportunity to attend the Association of Bookmobile and Outreach Services' Annual Conference in Hershey Pennsylvania. This event allows outreach librarians from across the country to gather and share ideas, learn best practices, and network with their colleagues. Conference participants had the opportunity to attend a variety of programs over the course of three days, in addition to the keynote address, networking events, and luncheons. Overall, I was very impressed by the quality of the programs offered and the range of topics covered in each program slot. I am happy to share some highlights from my experience below.

#### **Programs:**

#### **WOW Your Community**

How to create a committee made up of staff from all library departments to provide outreach services to the community.

### This Is How We Do It: Serving Older Adults from Independent Living to "Services No Longer Needed" and Everything In Between

Librarians from Louden County Virginia discuss how to deliver services to seniors in nursing homes, hospitals and assisted living facilities using a bookmobile.

#### This Is Library Work: Supportive Outreach for People Experiencing Housing Insecurity

Susy Gonzales Pueschner describes the extensive range of services she and her staff provide to the unhoused people living in tent communities in King County, Washington.

#### **Books by Mail: Reaching Every Patron**

Librarians from upstate New York discuss their book by mail programs, including the services offered by the federal Free Matter for the Blind program.

#### Project BRIDGE: Creative Engagement for Patrons with Alzheimer's and Dementia

Librarians from Jackson, Michigan provide an overview of their unique service plan for patrons experiencing dementia- "Building Relationships in Diverse Generational Experiences."

#### **Starting A Veteran Program in Your Community**

An outreach services librarian from Licking County, Ohio shares the resources he uses to maintain a database of servicemen and women and veterans in the area, tips for interviewing veterans, and suggestions for community partners serving the military community.

#### **Speakers:**

Kathy Stokes, AARP Director of Fraud Prevention Programs

Tiffany Jackson, Young Adult Writer

Attending the 2023 ABOS Conference gave me an opportunity to learn from my colleagues across the country, and I am eager to share my experiences with my coworkers here at the library. I am grateful to my fellow staff members, who covered my desk hours and other responsibilities while I was away. I would also like to thank Keith Klang, James Hutter and the board of trustees for allowing me to attend the conference.

Respectfully submitted,

Kate Monsour

**Head of Adult Services** 

#### SENATOR JACK M. MARTINS

7TH DISTRICT MARTINS@NYSENATE.GOV

#### VICE CHAIR

SENATE MINORITY CONFERENCE

#### RANKING MINORITY MEMBER

LABOR

PROCUREMENT AND CONTRACTS

#### **COMMITTEES**

FINANCE HEALTH

HOUSING, CONSTRUCTION AND COMMUNITY DEVELOPMENT

#### Dear Friends,

The cold and flu season is once again upon us, but we have a bit of good news that will help. The New York State Senate has made available Indicaid COVID-19 Rapid At Home test kits for distribution to residents in our district. Although they were marked with an October, '23 expiration, both the FDA and the manufacturer have confirmed that these kits are both SAFE and EFFECTIVE until October of 2025. Please visit www.fda.gov for more information.

In that light, we're partnering with local libraries to distribute these kits to our neighbors. So, you can pick up a few books for your fall and winter reading and COVID tests to help keep you safe. How easy is that?

I hope you have a safe and healthy winter full of good reading. And be sure to enjoy all the resources your local library has to offer!

Sincerely,

Jack M. Martins NYS Senator

Anonymous	10/3/23	Can you bring an electric Cricut kit for kids?			
Т. В.	10/6/23	Jeff Zeh is simply the best. Polite, Excellent Interviewer, Kind, etc.	KM/		
L.L.	10/15/23	Email to Elise May Hi Ms, May, I just wanted to thank you for doing this amazing program and for including Sammy and now Gracie. The kids were so excited to read me their books (and read their books to their uncles over FaceTime too). They even decided to continue with the activity today— they've spent the past half hour sounding out words and continuing to write their books!! Thank you so much- we've never seen the kids this excited about writing! Hope you have a good rest of your weekend.			
B. S.	10/20/23	Today I had a problem with a virus on my computer and brought it to the computer room for help. Ms. Barbari tried to get rid of the virus and then asked Mr. Egerton to look at it. Mr. Egerton worked very hard until he fixed the problem.  I want you to know that I am very grateful to the library and both Mr. Egerton and Miss Barbari for the service provided to me.	MD/MD

**Portland State University** 

# **Gen Z and Millennials**

# How They Use Public Libraries and Identify Through Media Use

#### **Executive Summary**

# Gen Z and millennials have some surprising attitudes and behaviors regarding media consumption and library use.

Generational categories like Gen Z and millennials (aged 13-40 in 2022)<sup>1</sup> are an important way to understand book engagement and library use because "an individual's age is one of the most common predictors of differences in attitudes and behaviors."<sup>2</sup>

Mobile computing is a key aspect of daily life for Gen Z and millennials. 92% check social media every day; 25% check social media multiple times per hour. The high instance of reading on mobile devices among these groups, particularly of social media and other "walled garden" apps, is a profound shift from previous generations. This report will explain some implications of that development. It will aid librarians and other stakeholders in examining how libraries currently serve Gen Z and millennials, and how to continue serving them as they age. At times this report considers Gen Z and millennials together; at others, it drills down into generationally-specific behaviors when those behaviors differ sufficiently to warrant attention or explanation.

Based on a nationally representative survey sample conducted by the authors,<sup>3</sup> this report

discusses the following attitudes and behaviors Gen Z and millennials have regarding libraries:

- 54% of Gen Z and millennials visited a physical library within a twelve-month period.
- Libraries attract even Gen Z and millennials who don't identify as readers. 23% of Gen Z and millennials had visited a physical library in a twelve-month period AND did not identify as readers.
- Subscription-only and/or mobile-exclusive content provided in apps such as Webtoon (webcomics), Radish (romance e-novels) and Audible (audiobooks) is particularly popular with Gen Z and millennials: 12% of Gen Z & 8% of millennials subscribe to webcomics and 30% of Gen Z & 38% of millennials subscribe to Audible. But subscription content, such Audible-exclusive titles, is mostly unavailable for libraries to license.⁴
- 52% of Gen Z and millennial physical library patrons said they borrowed from library digital collections.
- Black (58%) and Latinx (57%) physical library patrons use digital collections more than the general survey population (52%).
- Long wait times for digital books disadvantage Black, Indigenous, and People of Color more than the general population. 47% of Black Gen Z and millennials overall (not just physical library patrons) have used digital collections, compared to 37% of the general population.
- 75% of Gen Z and millennial physical library patrons believe a library wait of one week or less is "long."

**54%** of Gen Z and millennials **visited a physical library** within a twelve-month period.

- Teen lounges in libraries are safe, comfortable spaces that support:
  - relaxation
  - mental and social well-being
  - learning untethered from school and educational mandates
- Given a choice, 59% of Gen Z and millennials would choose the graphic/manga version of a story rather than a text-only book.
  - Preference for a graphic/manga version instead of text-only book is higher in Black (69%) and Latinx (73%) communities.

Overall, social media use, crossmedia identities (readers, gamers, makers, fans and more), and subscription engagement characterize Gen Z and millennials in contrast to other generations.

#### This report is organized into five parts:

- 1. Gen Z library use and non-use.
- 2. How Gen Z and millennials use media and discover books.
- 3. Gen Z and millennials' identity categories such as readers, gamers, makers, and fans.
- 4. Challenges libraries face in growing Gen Z and millennials' engagement.
- 5. Recommendations for how libraries can connect with Gen Z and millennials.

#### Introduction

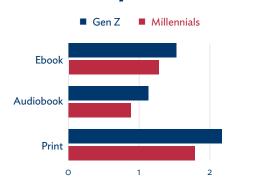

Millennials (age 26–40) and especially Gen Z (age 13–25) have grown up in an increasingly digital environment, which shapes their reading behavior, reading preferences, and modes of book discovery. The survey results show that 92% of Gen Z and millennials check social media daily. 25% report checking multiple times an hour. According to 2022

92% of Gen Z and millennials check social media daily. 25% report checking multiple times an hour. Pew data, "fully 35% of teens say they are using at least one [social media platform] 'almost constantly." Gen Z is the first generation to have had access to mobile computing since early childhood. If previous

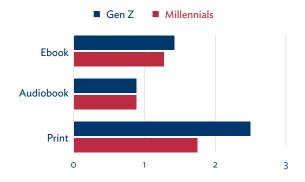

generations had to physically move to access media in a particular location (e.g., the "tv room" in a house; a computer lab at school), most of today's teenagers and young adults have microcomputers ("phones") on their person.

The success of artificial intelligence-powered digital marketing helps to explain why 1 in 3 Gen Zers and millennials in the survey buy books based on recommendations from Instagram reviews/ads and 31% buy books because of TikTok reviews/ads. During their lives thus far, these two generations have been surrounded by pervasive media environments that mediate their interactions with friends, other social groups, and information. As a result, some of their behaviors and expectations when it comes to libraries require explanation.

# Average Number of Books Read per Month

## Average Number of Books **Bought per Month**

More than people in previous generations, Gen Z lives in an augmented reality moving seamlessly between embodied and virtual space through phones. As one Gen

Zer commented:

"For me, online and offline are one and the same, basically the same thing, integrated." Yet, importantly, this comfort with the blurring of the

Gen Zers buy and read slightly more than millennials in all formats. **Print is the preferred format.** 

digital and physical worlds does not translate into a preference for the digital. With more time spent on mobile computing comes increased need for "social media detox" and other efforts to limit or demarcate one's time in mobile apps. Print books are Gen Zers' #1 preferred book format. Young people visit bookstores. Despite all the digital options, browsing library shelves continues to be relevant to their discovery of new books.

Additionally, despite assumptions that young people may read less, both Gen Z and millennials are consuming books: on average they buy 1 ebook, 1 audiobook, and 2 print books per month; and read (including through subscriptions) 1 ebook, 1 audiobook, and 2 print books per month. Gen Zers buy and read more than millennials in all formats. Age negatively correlates with the number of print books bought per month: the younger Gen Zers are, the more print books they buy. The charts illustrate book reading and book buying across formats.

#### **Physical Library Visits**

Do Gen Zers and millennials use libraries? How and to what extent? About half of Americans aged 13-40 visit libraries in person, and this usage rate has been consistent over recent years. In the survey 54% of Gen Z and millennials reported having used physical libraries within a twelve-month period. This percentage is very close to what Pew reported for millennial library use in 2017 (53%), and is higher than Pew's findings a decade ago.9 27% of Gen Z

**Nourishing Gen Zers'** use of the library continues to require physical space and print materials because they like print books.

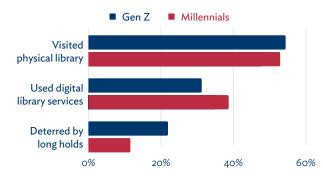

and millennials report discovering books by browsing books on shelves at public libraries. **Browsing public** libraries is Gen Z's #3 preferred place to discover books. Libraries are the

#5 preferred place for millennials to discover books. Millennials are more likely to use the digital library collections than Gen Z. More (64%) African American or Black Gen Z and millennials visit the physical library, 10 percentage points higher than the general survey population. For both Latinx and Asian/Asian American Gen Z and millennials, browsing shelves in public libraries was the #3 preferred place of book discovery, after "on my phone in social media

**Libraries Are Book** Showrooms for Gen Z and Millennials

What role do libraries play in Gen Z and millennial reading habits and book discovery? In the Immersive Media and Books 2020 research, researchers found that 1 in 3 book engagers bought a book that they first found at the library." Generally, book engagers were context agnostic, meaning that they often found a book in one place and bought it or borrowed it in another. Turning attention to Gen Z and millennials specifically in 2022, libraries fit well with the "robust sampling" culture that Gen Zers and millennials are accustomed to. Digital subscription models

#### **Library Use** Gen Z versus Millennials

feeds" and "streaming TV/movies that are adapted to books."

Gen Z slightly outperforms millennials in visits to physical libraries in the last twelve months. It also corresponds with Gen Z's preference for printed books. Nourishing Gen Zers' use of the library continues to require physical space and print materials because they like print books. Gen Z and millennials who had not been to the physical library in a twelve-month period read less than the general population across all formats except text messages and emails. Notably, 17% of the group that didn't physically visit the library did report using library digital services.

Physical library visitors identified these barriers or attitudes to digital borrowing:

- 41% "I didn't know how to access library services during the pandemic."
- 20% "I don't use library services."
- 14% "There's no library close to where I live."
- 12% "I lost my library card."

Gen Z and millennials are not going to the library only to borrow print books. Across age demographics, there was a 23 percentage point increase in Americans who attended library programs from 2014 to 2019.10

through which Gen Z and millennials consume other media (such as Netflix, Kindle Unlimited, Xbox Game Pass, Spotify, Audible, etc.) allow them to try new media products risk-free. In the traditional, print-centered book publishing ecosystem, libraries are the place for robust sampling.

Libraries allow people to try out books risk-free. This, and the role that libraries play in curating and promoting books, mean that libraries bolster publishers' low marketing budgets—for free.

Penguin Random House disclosed during the Department of Justice antitrust trial on the proposed acquisition of Simon & Schuster that they allocate 2% of their budget for marketing. Extrapolating from this, Guy LeCharles Gonzales calculates that they spend an average of \$3,187 per title, for a total of \$47.8 million.<sup>12</sup> Visibility in the crowded marketplace is a formidable challenge facing publishers, and they will pay to get optimal book display placement algorithmically with online vendors and also at retail bookstores. They pay a commission of 3-7% on books sold, or a dollar amount around \$100, for a display at a bookstore. By contrast, libraries display books for free-no marketing dollars demanded. Some even invite local bookstores to sell books at library-sponsored author events. In the digital environment, attentive digital librarians customize their curated collections to the borrowing and holds requests of local patrons. Digital collections managers can adjust licenses in real time to accommodate demand, if the library can afford to fund staff time to monitor digital collection use.

#### 54% of Gen Z and Millennials Who Don't Identify as Readers Visit Libraries— Why?

43% of Gen Z and millennials don't identify as readers. Of that "non-reader" group, 54% have been to their local library in the past twelve months. Why? What is it about libraries that attracts "non-readers"? What is the library's value to non-readers?

The library provides a number of things beyond books: a safe, free place to hang out; important

resources and advice during big life changes such as career transition, parenthood, new language acquisition, or learning to read; Wi-fi enabled work spaces; and creativity resources like maker spaces and media production equipment. Libraries also provide programming relevant to teens (Gen Z) and parents (older Gen Z and millennials), such as coding clubs, storytimes, job application help, and more. This helps to explain why, across age demographics, there was a 23-percentage point increase in Americans who attended library programs from 2014 to 2019.

The youth that researchers met during visits to two public library branches talked about coming to the library just to "vibe" and hang out. One contrasted the public library experience to that of her school library, where she said students had to have "a reason to be there" such as a test or study hall, as activities are tied to the school's curriculum. While her school library required her to be quiet and have a pass to enter, the public library was a place where she and other teens could chat while crafting. Making collaged bookmarks in the teen room, one young person commented, "this is so relaxing," which points towards the role that libraries play in mental/emotional health and socializing. At both library branches we visited, books lined the walls of the teen lounges. Some young people picked up books as they did other things such as crafting, gaming, checking their phones, chatting, and showing their craftwork to the teen librarians and an adult mentor. In these spaces, books were always an option but were not the focus of the experience.

#### Millennials and Gen Z Also Visit Bookstores

In 2023, independent bookstores are a surprising success story, despite consumers buying more books from online retailers. 2023 has seen a growth of independent bookstores, leading to the highest number of American Bookseller

Association members in over two decades.<sup>13</sup> In keeping with this, bookstores are an important part of reading for many Americans in the 13–40 age group. This research found that 58% of Gen Z and millennials bought a book in a bookstore in the prior twelve

months. More than one third (35%) of those bought a book because they were browsing at the store and found something they liked. While bookstores don't allow for the same level of robust sampling that libraries do, they do allow readers to examine different books in person and often offer book recommendations and events.

A secondary appeal: indie bookstores tap into people's ethical values to "shop local" as a means of supporting one's community. 13% of Gen Z and millennials said they bought books to support their local bookstore. Browsing shelves in brick-andmortar libraries is the #3 preferred place for Gen Z

and millennials to discover books (13%), followed by browsing shelves in brick-and-mortar bookstores as #4 (11%). The #5 preferred way is browsing shelves in public libraries (11% of Gen Z and millennials). These data demonstrate that Gen Z and millennials slightly prefer bookstores to libraries for printed book discovery. However, Gen Z and millennials equally prefer recommendations from booksellers

and librarians (15%).

The instant availability of popular titles and the shopping experience would seem to be the most important differentiators between bookstores and libraries; however, the most popular print books at the library are less likely to be on the shelves for patrons

to browse because they are borrowed out and on hold lists. By contrast, bookstores highlight the most popular titles on tables and face them out on shelves, increasing visibility and availability of in-demand products. Indie bookstores often feature cafés and places to sit where customers can make themselves as they browse. The Public Library Association recommended that libraries add coffee and couches back in 2017, but many libraries continue to lack the ability to have food inside the building, making library cafés a challenge to implement.<sup>14</sup>

#### Gen Z and Millennials' Digital Collections Use

It's clear that Gen Z and millennials use libraries for their physical book collections and other resources, but what about their digital books? The survey found that only 37% of Gen Z and millennials borrowed from library digital collections. 80% of those borrow ebooks and audiobooks 2–7+ times per year. A majority of digital collection non-users say they don't understand how to access digital collections, indicating that there is an opportunity to proactively educate younger library users about digital library resources.

Millennials outpace Gen Zers in using the digital library collections, and they also have a higher tolerance for long wait times—something that library

A majority of library

digital collections.

#### **Long Library Wait Time** According to Gen Z and Millennials

patrons often encounter with popular digital materials. While 83% of library users ages 13-40 report not being deterred by wait times for digital library resources, Gen Zers are more deterred by long wait lines than millennials (21% compared to 17%). Notably, a combined total of 75% of Gen Zers and millennials say that a wait time of one week or less is "long."

What are the barriers to digital borrowing for those who haven't visited a physical library in a 12-month period? 40% said "I don't use library services." 28% said "I didn't know how to access library services

75% of Gen Zers and millennials say that a wait time of one week or less is "long."

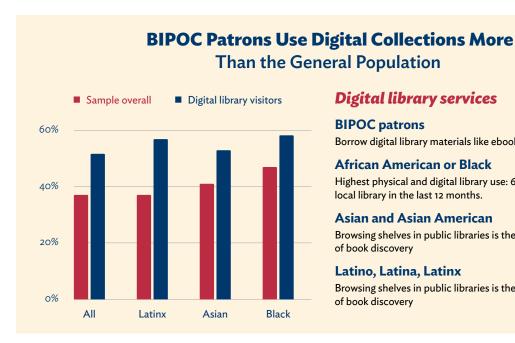

during the pandemic." 20% said "I don't read audiobooks or ebooks." 12% said "I lost my library card."

Use of library digital collections breaks down differently by race and ethnicity. Black (58%) and Latinx (57%) physical library patrons use digital collections more than the general survey population (52%). 47% of Black Gen Z and millennials overall (not just physical library patrons) have used

Fair digital access is a racial equity issue, facilitating Black, Indigenous, and People of Color (BIPOC) access to books.

digital collections (compared to 37%). Black and Latinx GenZ/ millennials are also more likely to be deterred by long hold lines at the library. Therefore, fair digital

access is a racial equity issue, facilitating Black, Indigenous, and People of Color (BIPOC) access to books.

### GEN Z AND MILLENNIALS MEDIA USE AND BOOK DISCOVERY

# Media Use: Who Is Reading What?

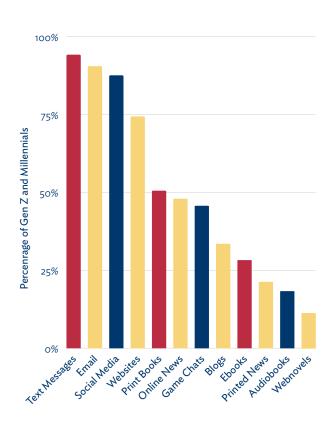

This research expands the definition of reading to include a wide range of formats. We found that among Gen Z and millennials the top four most read modes in the last 12 months were digital (text messages, email, social media, websites). Print books came in fifth, with ebooks and audiobooks even further down the list. Some shifts in reading may be due to the amount of time people spend with their mobile devices and the conveniences of being able to read in short bursts—such as during a break from work or school, or while in transit, or while waiting in line. Webtoon and other serial content subscription apps, for example, compete with books for reading time, and their quick-to-read formats (such as single-pane webcomics), gives them an advantage in meeting readers' needs for short bursts of reading. Webtoon, at 85.6 million monthly readers globally, is the fastest-growing reading app. 5 Webtoon's U.S. audience hovers around 20% of its global audience, or 17.1 million monthly readers. Webtoon offers most of its serial content for free; subscribers pay to access content faster than the free release.16

Some differences exist between Gen Z and millennials in reading practices. Gen Zers are reading chats in games and webnovels in greater proportions. Millennials, meanwhile, read more emails, ebooks & audiobooks, blogs, and newspapers compared to the younger group.

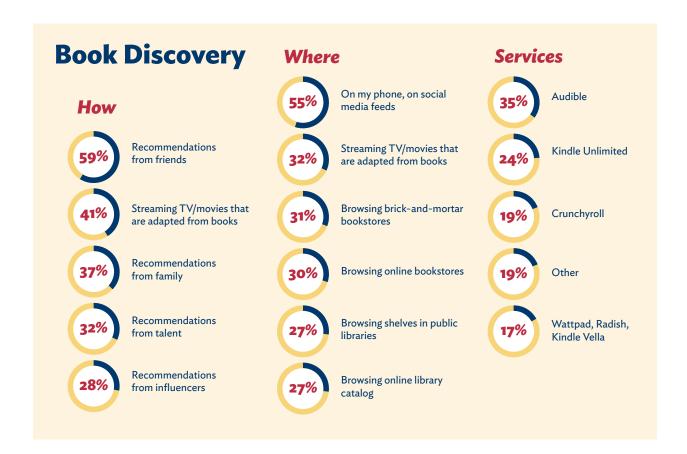

# The How and Where of Book Discovery

The hybrid online/offline environment that Gen Z and millennials are embedded in significantly impacts their book discovery and reading habits. The graphic below illustrates this—showing how and where people discover books alongside the subscription services most popular among Gen Z and millennials.

#### Read in the Last 12 Months

As can be seen in the graphic below, Gen Z and millennials discover books based on recommendations of people they know (friends, family) as well as strangers (talent and influencers). They discover books both in the digital world (social media, streaming/TV movies, online bookstores and library catalogs) and in the physical one (bookstore and library shelves). Many also subscribe to an ecosystem of services that are inaccessible, at least in part, to libraries. Audible, for example, is a mixed bag: some of its audiobooks are available at libraries, and some are not. A portion of "Amazon Originals" and "Amazon Exclusives" are currently only accessible through DPLA's Palace Marketplace. The following content is currently inaccessible to libraries: CrunchyRoll; fanfiction

and serialized fiction apps like Wattpad, Radish, and Kindle Vella; and subscription services in the "Other" category which includes Webtoon, Substack, Patreon, and others. Of the Gen Zers and millennials who read webnovels, 60% pay for faster access to content; for people who use Substack, 79% pay for faster access to content. "Original" content usually means it can be accessed exclusively on that platform. Readers tender an unseen payment in the "attention economy" as they read on these apps: the pattern of their time on site, how often they check the site, how quickly one opens a new installment, and far more granular information than that."

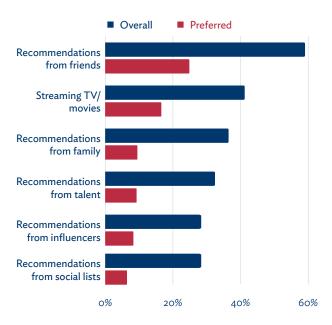

Modes of book discovery differ somewhat between Gen Z and millennials. Gen Z invests more trust in celebrities, influencers, and social lists, though both groups accept them as trusted resources. More than one third (34%) of Gen Z people discover books based on recommendations from influencers (TikTokers, Instagrammers, bloggers, Discord streamers, and so forth.) Millennials are somewhat less influenced than Gen Z by influencers (23% for millennials compared to 34%

of Gen Z). By contrast, millennials read significantly more online news services (57% compared to Gen Z's 36%) and printed newspapers (27% compared to Gen Z's 14%). Reviews are more effective in driving millennials' book discovery. Millennials' media habits are a middle ground between Gen Z and older generations. Perhaps unsurprisingly, Gen Z is less influenced by legacy media reviews: more (20%) said they were influenced by recommendations from online reviewers (Goodreads, Amazon, Audible, and Barnes and Noble) than by bestseller lists (15%) such as New York Times, USA Today, Publishers Weekly, Amazon.

## Preferred Ways to Find Books

Streaming TV and movies is the #2 preferred way Gen Z and millennials discover books. For Black Gen Z and millennials, streaming is the #1 preferred way to discover books, a 10 percentage point increase over the general population. Gen Z and millennials

### **Top 6 Methods of Book Discovery** for Gen Z and Millennials

are media omnivores who discover new content across media, finding a story they like in one format and following that story through its representations in other formats ("crossmedia"). These gener-

For Black Gen Z and millennials, streaming TV/movies is the #1 preferred way to discover books.

ations also move nimbly from virtual to embodied space. Latinx Gen Z and millennials reported strong engagement with fanfiction,

48% (10 percentage points more than the general population) and 27% subscribe to mobile serial fiction apps such as Wattpad, Radish and Kindle Vella (10 percentage points more than the general population).

Digging deeper, we asked survey respondents to check all of the ways they discover books (the **blue** bars in the chart above) and their preferred way of discovering books (the **red** bars in the chart above). Recommendation from friends (25%) is the most-preferred way to find books, closely followed by recommendations from talent<sup>20</sup> (8%),

influencers (7%), and social lists (6%).<sup>21</sup> These two categories together (friends and social media/influencers) far outpace recommendations from family (9%) as the most-preferred way to find books.

## Preferred Social Media Platforms

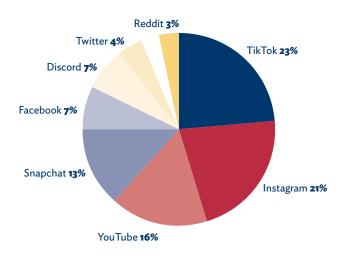

There are both similarities and differences between the social media platforms that Gen Z and millennials preference. Both groups prefer Instagram (21%) and YouTube (Gen Z—16%; millennials—17%) at similar rates, but beyond that there is a divergence. Gen Z indicates a relative preference for TikTok (23%) and Snapchat (13%), while millennials prefer Facebook (33%) much more than Gen Z (7%). These findings are consistent with Pew's 2022 research into teen use of social media platforms, which found that "TikTok has established itself as one of the top online platforms for U.S. teens, while the share of teens who use Facebook has fallen sharply."<sup>22</sup>

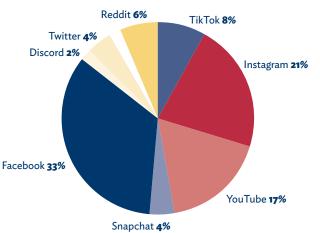

The differences between Gen Z and millennial social media platform preferences become significant when it comes to book discovery and purchase. While 21% of both Gen Z and millennials bought a book recommended or advertised on YouTube, millennials were more likely to buy a book recommended or advertised on Instagram (35% of millennials, 29% of Gen Z) and Gen Zers were more likely than millennials to buy a book recommended or advertised on TikTok (34% of Gen Z, 28% of millennials). Of the 46% of respondents who bought a book from a bookstore, Instagram was their #1 preferred platform. These data raise the question: how can librarians participate in social media marketing if they lack the time to immerse themselves in platform-specific conversations and vernacular? Does content pushed across traditional marketing channels even reach Gen Z and millennials?23

Social media on mobile phones is effective because it allows marketers to achieve "six touchpoints"<sup>24</sup> that build product awareness faster than is possible in newspapers, magazines and television. Talent and influencers typically post new content daily, and engage in conversation with fans. Such

### **Gen Z** Preferred Social Media Platform

### **Millennial** Preferred Social Media Platform

interaction builds trust and establishes credibility. That's why talent and influencers are also sites of conversation among fans. Identification as a "fan" is high with Gen Z and millennials (52%) and fans have many channels, online and offline, to engage with creators and hang out longer in the storyworlds they love.

When fans are also creators, printed books make good props in visual media like TikTok short videos and Instagram Reels. There are no TikTok videos of ebooks! Printed books can be imaginatively used as conversation pieces or expressive objects. An early BookToker, Ayman Chaudrhary, famously videoed herself throwing Song of Achilles across the room because it broke her heart. Many #booktoks focus on the materiality of the printed book, including closeups of bookmarks and other types of decoration, or stacks of books filmed in stop-motion animation. For celebrities and influencers, books are a quick way to generate ideas for fan engagement. Emma Roberts, an actress who started a book club on Instagram during pandemic lockdowns, said: talking about books "is one of my favorite ways to engage with my followers. ... [It] just adds so much more substance to your online interactions."25 Finally, the automation and customization of digital technology helps to make social media marketing effective. Artificial intelligence "can create 100

different variations" of a particular author newsletter or collate disparate datasets into a remarkably personal and customized pitch.<sup>26</sup>

Trends like these are top-of-mind for the most avid readers and media consumers; librarians should keep them in mind when strategizing how to "meet" Gen Z and millennials where they "live."

#### **GEN Z AND MILLENNIAL IDENTITIES**

#### **Consumers and Creators**

In addition to consuming media, Gen Z and millennials also create it. They hold multiple identities, as readers, gamers, writers, fans, livestreamers, podcasters, and more. More Gen Zers identify as gamers, and fewer identify as readers. Millennials have higher percentages of identification as readers, fans, livestreamers, and podcasters. Identity is a perception of self, and identities are social, multiple, and fluid. In choosing to report self-identification, such as being a fan, the Gen Z and millennials in this study were able to interpret the terms of identity in their own ways. A fan could be an enthusiast of anything, not just book- or media-related things. The survey allowed respondents to define themselves as they saw fit, without required benchmarks to establish who "qualified" as a fan.

So why do these media identities matter, particularly to libraries? Leung et al. found that the more relevant a product is to a person's identity, the more the physical version of that product will appeal to the consumer.<sup>27</sup> Gen Z and millennials tend to buy more books per month if they identify as readers.

Identities are social, and the community aspect of media consumption is a motivating factor for Gen Z and millennials. Being part of a fan community and connecting with others like them is the most important element of Gen Z media consumption. Nearly one-third (32%) of Gen Zers who identify as gamers report that they play videogames as a way to talk with friends, compared to 26% of gamers in the general survey population. Two of the top 3 reasons why

**Media Identities** Gen Z and Millennials

like them (26%). Gaming and fandoms provide the community and connection that Gen Zers value. By contrast, reading reflected more solitary pleasures. Reading for Gen Z was primarily motivated by "me

time" and the desire for escapism. Given this orien-

tation, libraries are in a unique position to demonstrate to Gen Z the social dimension of books by providing them spaces for community to meet and talk, especially inside branch libraries.

> One of the most important findings of the Immersive Media and Books 2020 research was that avid media consumers are avid across categories: it's not a zero-sum game. People who avidly game and avidly watch TV/ movies are also often avid readers and book buyers. In the 2020 study, we defined "avid"

engagement as 4+ books per month, which was 53% of the survey population.28 For these "avid" engagers,

Gen Z people report identifying as fans are 1) to be part of a fan community (27%) and 2) to meet others

there is an amplifying effect as an individual moves between media modes and platforms.

For Gen Z and millennials, 57% identify as readers, 53% as gamers, and 52% as fans. Those who discover books through 5+ different modes have higher rates

Gen Zers we met at our library branch visits were well aware of the **creator economy**, for example, and talked about ways to participate in it. of identification across the identity categories. They eagerly explore content across different media and identify as both **consumers**: readers (74%), fans (62%) and gamers (56%); and **makers**: writers (33%), livestreamers (17%), and podcasters (14%). Avid engagers fluidly move between consuming and making media. Perhaps

this is why social media is such a popular way for Gen Z and millennials to discover books: it taps into both the consumption and production aspects of their identity, as they watch talent and influencers, then join the conversation by posting their own content in response.

These complex consumer/producer identities were reflected in our ethnographic research. Gen Zers researchers met at library branch visits were well aware of the creator economy, for example, and talked about ways to participate in it. One entrepreneurial young woman had three different ideas for making and selling products in the creator economy.

For instance, she was interested in building a lip gloss business using vegan products because those products are in-demand with other Gen Zers and because vegan products are more sustainable for the environment. One young man regularly wrote and recorded his own rap music in the recording studio inside his local library.

In another library site visit, researchers observed teens alternating between playing video games together and pausing to go back and join the larger group craft activity. Some of the specific media they identified consuming included rap and country music, Batman and 2K video games, and TV such as anime, iZombie, Umbrella Academy, Love/Dance/

Robots, and Grey's Anatomy. They talked about reading manga, the Geronimo series, and other books. Occasionally the young people would break away from the craft activity to quietly peruse the shelves of books lining the

teen lounge walls. In other words, the teens moved fluidly between creating, consuming, socializing, talking about their media, and browsing shelves, which illustrates their hybrid identities and engagement with both physical and digital media.

#### CHALLENGES

Libraries (and publishers) face three main challenges when it comes to Gen Z and millennial media habits and preferences.

# Amazon Frames Gen Z and Millennial Book Expectations

Gen Z and millennials' high use of Amazon's audiobook and ebook paid subscription services poses a challenge for libraries particularly because of "Amazon-exclusive" licensing, which prohibits some authors from distributing their work outside the Amazon ecosystem. The same is true for "Amazon Originals," which is exclusively available to Amazon subscribers. In June 2022, DPLA partnered with Lyrasis and Knight Foundation to launch The Palace Project, a not-for-profit e-reader app, platform, and marketplace that allows libraries to serve e-content from all their vendors to patrons via a single app, available for iOS or Android. DPLA also runs Palace Marketplace, with an emphasis on providing libraries with flexible licensing models. Palace Marketplace includes more than 1.2 million ebook and audiobook titles from all of the Big 5 publishers,

Amazon Publishing, Audible, hundreds of mid-size and independent publishers, and independent authors. So far, Palace Marketplace is the only platform that has negotiated access to titles from Amazon Publishing and Audible. If there are Amazon-exclu-

sive books that are not accessible through the public library, this limits the library's ability to serve its patrons and offer them the books that they need and want, in the formats that they need and want. And, of course, libraries and publishers are not the only organizations whose operations have been disrupted by Amazon. Borders closed in 2011 and Barnes and

Noble has retrenched from 726 stores in 2007 to 600 stores in May 2023.<sup>29</sup>

Additionally, the convenience of direct-to-door delivery of books from retailers like Amazon builds expectation in Gen Z and millennials regarding their access to print books. Amazon's advantage is convenience. Many libraries offer some delivery services to homebound individuals; and several libraries around the country pivoted during the COVID-19 pandemic to offer book delivery services to their patrons when physical library doors were closed to the public. As the world transitions into another stage of COVID-19 where pandemic becomes endemic, print book delivery should remain in the conversation for libraries to increase print circulation and reach printhungry Gen Zers.

#### 2. Pirating Books versus Library's Legitimate Digital Book Access

One third (32%) of Gen Z and millennials download or read books for free from unlicensed sources. The ease of downloading and sharing ebooks and audiobooks has been staunched by digital-rights-manage-

One third (32%) of Gen Z and millennials download or read books for free from unlicensed sources. ment software installed in digital books by publishers. But publishers remain wary that ebooks and audiobooks cut into print sales.

John Sargent, the former Macmillan CEO who led an 8-week embargo against granting libraries access to new digital book releases, defended his decision by saying he didn't want "frictionless" ebook access to train customers to get new releases for free. More recently, the Association of American Publishers-successfully sued to prevent state legislatures from mandating "reasonable terms" for libraries' digital book licensing. Publishers prevailed in the first

case decided in a federal district court, winning the right to charge licensing prices without additional regulatory oversight beyond existing laws. This win is welcome news for publishers, but it doesn't affect ebook reading beyond the scope of library licensing. Publishers might benefit in the long run by encouraging Gen Z and millennials to borrow more ebooks from libraries, because doing so might train them to seek out licensed ebooks and audiobooks rather than pirated, often substandard, versions.

The 32% of Gen Z and millennials who pirate books is a large potential audience whose needs are not currently met by long wait times. Would more people borrow from libraries if wait times for ebooks and audiobooks were shorter? Can people who are in the habit of illegally downloading books be retrained to borrow licensed digital books from libraries?

These questions are important because the habits young people develop in accessing digital books may persist into adulthood, when they will have more control over their disposable income as book buyers and will also be able to vote for or against library tax levies.

Libraries give people a legitimate, morally unimpeachable way to access free books. Library borrowing also leads to book buying and discovery. The *Immersive Media and Books 2020* study found that 33% of the people who discovered a book at

the library went on to purchase it.<sup>32</sup> Publishers need discovery tools in a very crowded media marketplace. "Pirates" are also some of the most passionate book readers. Immersive Media and Books 2020 shows that "pirates" are super-consumers, active across all

Publishers, librarians, and authors should consider aligning in one mission to keep people reading digital books through legitimate access. Libraries are a time-proven and convenient way to do this.

media both as consumers and producers.<sup>33</sup> They are people who sometimes purchase books they've already downloaded/read, and they actively participate in online, book-centered communities.

Publishers, librarians, and authors should consider aligning in one mission to keep people reading digital books through legitimate access. Libraries are a time-proven and convenient way to do this.

# 3. Lack of Equitable Access to Digital Collections Harms BIPOC

Publishers are for-profit companies and public libraries are freely accessible mission-driven public organizations. This structural difference can lead to tension between libraries and publishers regarding digital lending terms. This report substantiates through data that BIPOC patrons use digital collections more than the general population. In her analysis of public library mission statements, Melissa Fraser-Arnott identified six components of modern public library identity: 1) community building, 2) culture and recreation, 3) equitable access, 4) information, 5) positive impact, and 6) stewardship.34 Crawford Barniskis notes that lifelong learning and knowledge acquisition are core to public library mission statements.35 As libraries, publishers and authors collaborate to make reading legitimately-accessed digital books easier, the guiding principles Fraser-Arnott identifies should be kept in mind.

#### **RECOMMENDATIONS**

Based on this report about Gen Z and millennials, we researchers have two top-level recommendations supported by several specific ways libraries might increase their relevance with Gen Z and millennials.

#### Get in Gen Z and Millennials' Consideration Set

Many Gen Z and millennials report that shelves at public libraries are some of their favorite places to browse for books. But their attention is corralled multiple times per day (if not per hour!) by ad-supported social media environments. How to get their attention? A simple external link from digital borrowing apps, such as Libby, to the branch library's website could make a big difference in keeping local branch libraries squarely in Gen Z and millennials' consideration set.

# 2. Communicate Libraries' Unique Qualities

More than previous generations, Gen Z responds to values-based marketing.<sup>36</sup> The same people who buy books at their local bookstore are people who might champion libraries, if they knew their advocacy would matter. Here are some of the value propositions libraries offer Gen Z and millennials and why supporting libraries contributes to the greater social good:

#### Libraries are free to visit and borrow from.

There may be confusion about why one would visit a library, particularly for people whose only prior experience of libraries is shaped by school libraries which might have strict rules around noise and use. Don't assume all people know that public libraries loan a wide range of materials, including ebooks and audiobooks.

**Libraries are fun.** The library is more than books and borrowing: library programming, innovative resources, and safe spaces to chill out are all great uses of branch libraries. Our observational work at Cuyahoga County Public Library branches showed us that Gen Zers are coming to the library to hang out with people and socialize after school.

Libraries protect privacy. Are patrons aware that libraries protect patron privacy and intentionally do not collect their data? Gen Z and millennials are habituated to exchanging their privacy for access to content and services, such as providing an email address or allowing their online behavior to be tracked. The core library value of not storing readers' borrowing histories may not necessarily resonate as valuable to younger people. It's time to make Gen Z and millennials aware of why privacy is core to libraries' commitment to intellectual freedom.

**Libraries are green.** Libraries are the ultimate green organizations in the book industry, reusing and sharing books. Socially conscious and activist-driven Gen Z and millennials align with companies and organizations that are eco-friendly and reduce carbon footprints. Want to reduce waste? Use your local library.

#### **METHODOLOGY**

This report on Gen Z and millennial library behaviors is informed by two primary datasets, one quantitative and the other qualitative.

The quantitative data comes from a survey of 2075 Gen Z and millennials (aged 13–40) in March 2022. The survey was conducted through Qualtrics, an industry-standard survey software that gathers respondents according to parameters set by the survey designers. The survey was designed to be completed in 15 minutes or less; research shows that completion rates drop after 15 minutes.

Quotas were implemented for race, gender, and region to ensure sample representativeness of this age group in the U.S. population. Gen Z represents 44.3% of the overall sample (919 respondents) and millennials 55.7% of the overall survey sample (1156 respondents).

The report also covers a diverse range of income levels. Of the 68.2% who had a job in the twelve months prior to March 2022, 38.1% reported earning less than \$30,000; 28.4% earned \$30,000-\$49,999; 19.8% earned \$50,000-74,999; 13.6% earned \$75,000+.

The qualitative data comes from ethnographic research at two branches of Cuyahoga County (OH) Public Library: Garfield and South Euclid. We did extra training and received certification from Portland State's Institutional Review Board to include minors in this study.

We conducted listening sessions with staff at Cuyahoga County Public named in the Acknowledgments. We also talked informally with librarians before and after our 2022 ALA panel<sup>37</sup>, and in correspondence with librarians who reached out after our talk.

#### **ACKNOWLEDGMENTS**

The authors thank Dr. Alan Inouye, Senior Director of Public Policy & Government Relations at the American Library Association, for convening conversation about the future of libraries in a 2022 round-table in Washington D.C. The roundtable included former ALA President Sari Feldman, Brian O'Leary (Executive Director of the Book Industry Study Group), and Larra Clark (Deputy Director of ALA Public Policy and Advocacy Office & Public Library Association), to all of whom we tender our thanks. From this conversation, important questions were raised that this report answers.

We are grateful to the leadership team at Cuyahoga County (OH) Public Library. Thank you (in alphabetical order) Daniel Barden (Technical Services Director), Wendy Bartlett (Branches Manager), Kaitlin Booth (Digital Collections Manager), and Hallie Rich (Chief, Communications and External Relations). Particularly thanks to Pamela Jankowski (Chief Public Services Officer) for arranging the branch visits. Thank you, Jen Deluke (Teen Librarian at Garfield Branch), Megan Barrett (Garfield Branch Manager), Emma Torrell (Teen Librarian at South Euclid Branch), Steve Haynie (South Euclid Branch Manager), and Louie Moore (Mentor/Monitor at South Euclid Branch) as well as the groups of young library patrons who welcomed us into their spaces to learn and listen.

- 4. Approximately 400 U.S. public libraries can provide access to 1000 Audible "original" titles through the Palace app from the Digital Public Library of America [DPLA] Exchange, as of May 2023, according to Michael Blackwell, Director of the St. Mary's County [Maryland] library. 20,000+ Audible titles should be available through Palace by the end of 2024. However, Blackwell notes, "none of these titles are available through OverDrive (which has about 90% of the library market), so it could be argued that in effect many [public] libraries will not have access" to Amazon's subscription-only content. There are no known licensing arrangements between public libraries and Naver's Webtoon or Radish.

- 16. For a fascinating look into how Kindle Vella is faring two years after launch, see this Reddit thread: "Is Kindle Vella Dead as a Strategy" [for self-publishing authors]: reddit.com/r/selfpublish/comments/10kgr3m/is\_kindle\_vella\_dead\_as\_a\_strategy.
- 17. See also in this report section 4.1 "Amazon Frames Gen Z and Millennial Book Expectations."
- 18. Serial reading platforms have different modes of incentivizing payment. For example, Webtoon offers a single-read "fast pass" and "coins" to permanently unlock the content. On the fiction app Radish, new updates make older episodes eligible to be read for free. Readers must "wait until the episode you want to read has the hourglass symbol next to it, rather than the lock" to read. There's a gamified element to reading in these contexts.

- 19. There are many books and other resources about the attention economy. See, for example, Shoshana Zuboff's The Age of Surveillance Capitalism: The Fight for a Human Future at the New Frontier of Power (2019).
- 20. "Talent" refers to creators across media, such as authors, livestreamers, comics artists, professional gamers, podcasters, and comedians.
- Social lists are recommendation lists on online social platforms such as Instagram, Reddit, and Discord.
- 22. Vogels et al., 2022.
- 23. Kristen McLean, NPD analyst, discussed the role of TikTok in driving the "70 percent of overall gains" in Q1 of 2022 book sales. Quoted in Friedman, The Hot Sheet 27 April 2022. mailchi.mp/hotsheetpub/nft-issue?e=6cd1ad34c1.
